# ICS 2011 11th INTERNATIONAL COASTAL SYMPOSIUM

09-14.05.2011 SZCZECIN - POLAND

## 2nd Announcement & Call for Papers

## ICS 2011 11th INTERNATIONAL COASTAL SYMPOSIUM

### ORGANIZING COMMITTEE

- Kazimierz Furmanczyk	<a href="#">Institute of Marine and Coastal Sciences, University of Szczecin</a>
- Charles Finkl	<a href="#">Department of Geosciences, Florida Atlantic University</a>
- Andrzej Giza	<a href="#">Institute of Marine and Coastal Sciences, University of Szczecin</a>
- Paweł Terefenko	<a href="#">Institute of Marine and Coastal Sciences, University of Szczecin</a>
- Joanna Dudzinska-Nowak	<a href="#">Institute of Marine and Coastal Sciences, University of Szczecin</a>

### ORGANIZERS

- Coastal Education & Research Foundation, Inc. (CERF)
- Institute of Marine and Coastal Sciences, Faculty of Geosciences, University of Szczecin

### CONFERENCE SECRETARIAT

#### ICS2011 -11th International Coastal Symposium

### IMPORTANT DATES

- Open of the Call for Abstracts / 1st of May 2010
- Close of the Call for Abstracts / 1st of September 2010
- **Notification of Acceptance / 15th of October 2010**
- Early Registration / 01.05.2010 - 30.11 2010
- Submission of Full Articles / 15th of December 2010
- Late Registration / 01.12.2010 - 01.04.2011

The 11th International Coastal Symposium ICS will be held in 9-14 May 2011 in Szczecin, Poland. The symposium will be organized by the Institute of Marine and Coastal Sciences at University of Szczecin.

Poland is located on the southern coast of the Baltic Sea and as such is endowed with more than 500 kilometers of the coastline. Szczecin is located in the north-west sector of Poland, south of the Szczecin Lagoon which is part of the Oder River estuary, draining into the Pomeranian Bay of the Baltic Sea. Szczecin, with nearly 500,000 inhabitants, is the capital of Western Pomerania province and is situated in the vicinity of three European countries: Germany, Denmark and Sweden. The historical and cultural milieu of the city originates from over thousand years ago and has been shared by several nationalities. Large parts of the city architecture go back to the last half of the 19th century, bearing striking resemblances to Paris, which was re-constructed by the same architect. Furthermore, the diverse city landscape is marked with the large harbor, many sail piers, parks and a beautiful secession downtown. The parks and squares in Szczecin are planted with many varieties of magnolia that bloom in spring as well as rare tree and bush species

The University of Szczecin, founded in 1985, and with over 30,000 students is the biggest university in the city and in Western Pomerania. One of the university's departments is the Faculty of Geosciences, which includes the Institute of Marine and Coastal Sciences. Specializing in marine and coastal research, the institute was founded in 1991. It will celebrate its 20th activation anniversary in 2011. Therefore, the 11th ICS will be an excellent opportunity to present the Institute's achievements.

**FEES**

**Early Registration**  
from 1st of May to 30th of November 2010

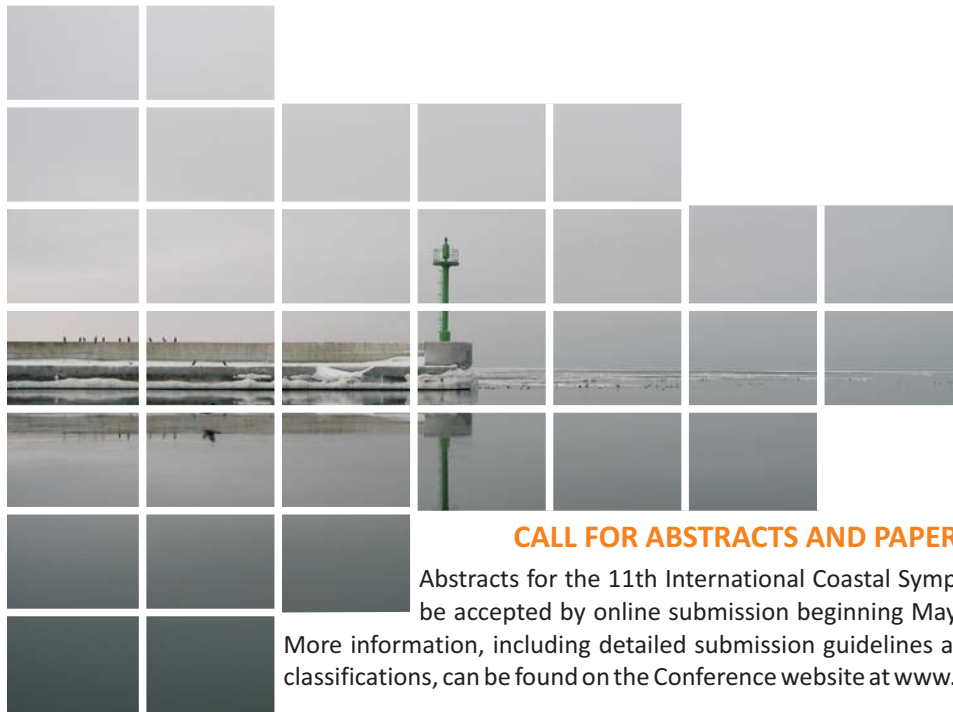

Delegates: 400 euros  
Students: 300 euros\*  
Accompanying Person: 150 euros\*\*

**Late Registration**  
from 1st of December to 1st of April 2011

Delegates: 500 euros  
Students: 400 euros\*  
Accompanying Person\*\* 250 euros

The fee doesn't include accommodation  
\* All included except the Banquet Dinner and Fieldtrips  
\*\* Includes Welcome Reception and Banquet Dinner

**ARTICLES WILL BE PUBLISHED IN A SPECIAL ISSUE OF THE JOURNAL OF COASTAL RESEARCH**

**CALL FOR ABSTRACTS AND PAPERS**

Abstracts for the 11th International Coastal Symposium will be accepted by online submission beginning May 01, 2010. More information, including detailed submission guidelines and subject classifications, can be found on the Conference website at [www.ics2011.pl](http://www.ics2011.pl)

**CONFERENCE THEMES**

- Acoustic Remote Sensing Barrier
- Islands Beach Processes
- Fetch-Limited Beaches
- Environments
- Climate Change
- Coastal Dunes
- Coastal Ecosystems
- Coastal Engineering
- Coastal Evolution
- Coastal Geomorphology
- Coastal Hazards and Pollution
- Coastal Modelling
- Coastal Polices and Planning
- Sedimentary processes and morphodynamics of sandy beaches on short time response
- Coastal Restoration & Mitigation
- Coastal Tourism
- Coastal Zone Management
- Delta Plain Management
- Estuaries and Lagoons
- Estuarine & Wetland Restoration
- GIS and Remote Sensing Applications
- Human Impact (interaction)
- Impact of Extreme Storms
- Integrated Catchment and Coastal Zone Management
- Marine & Coastal Protected Areas
- Nontidal Coasts (Baltic's and others)
- Paleoclimate of the Coast

**PROGRAM**

Monday 9 May	Registration & Welcome Reception
Tuesday 10 May	Sessions
Wednesday 11 May	Sessions Half Day Fieldtrips
Thursday 12 May	Sessions
Friday 13 May	Sessions Banquet Dinner
Saturday 14 May	All Day Field Trips

**HONORABLE PATRONAGE**

Ministry of the Environment, Republic of Poland  
Ministry of Infrastructure, Republic of Poland  
Marshall Office of the West Pomeranian Voivodeship  
The City of Szczecin
